

# NETWORKERS WITHOUT BORDERS

Are you a New Jersey Lawyer, Judge, Paralegal or other professional in career transition, or *thinking* about a change?

NJLAP hosts a special networking group where the goal is not only providing you with help and advice, but enlisting your help and advice for other group members. Our core beliefs are that networking:

- is the process of building and maintaining relationships; forging bonds and sharing
- is the establishment of multiple, informal, mutual-support alliances
- is connecting with people who have common interests and objectives and generously give to one another.

We don't provide job postings or leads. We do provide a safe, respectful, encouraging, hopeful and fun environment in which you can gain skills, insights and direction from other talented and self-aware professionals to assist you in your transition.

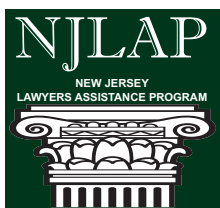

We may not be what you're expecting, but we may be exactly what you've been looking for.

**Interested? Email us at [network@njlap.org](mailto:network@njlap.org)**

*"I find the 'Networkers Without Borders' meetings to be very educational, inspirational and motivating. Without fail, I walk away having learned something that will help me with my job search." — TH*

*"The group has been valuable to me in learning new job hunting techniques — and not be freaked out/demoralized by my situation." — CS*

*"The group reminds me that there is more to a job search than the 'basic' resume, etc. There is interpersonal communication among community members which may have long-term benefits." — LR*
