**THE NEW JERSEY INSTITUTE FOR CONTINUING LEGAL EDUCATION
CELEBRATING OVER 40 YEARS OF SERVICE TO THE BENCH AND BAR**

The New Jersey Institute for Continuing Legal Education (ICLE) was created in 1962 to help lawyers and judges increase their general professional competence, keep abreast of developments in the law, and become more proficient in selected areas of practice. Since 1962, ICLE has served the educational needs of the New Jersey bench and bar and continually strives to respond to their many and varied concerns.

A non-profit, completely self-supporting organization, ICLE is a joint venture of the New Jersey State Bar Association, Rutgers – The State University of New Jersey, and Seton Hall University. Representing a merger of the practicing bar and the academic community, the Institute is governed by an autonomous Board of Trustees, which includes representatives of the State Bar Association, deans of the law schools and officers of the participating universities.

The Institute presents more than 250 seminars each year throughout the State, offers CDs of seminars, markets software programs especially designed for practicing attorneys, and publishes comprehensive practice manuals and lecture handbooks. Its programs and publications must be financially self-supporting since ICLE is not subsidized in any way. The professional staff of attorneys and administrators, aided by a dedicated support staff, is headquartered at the New Jersey Law Center in New Brunswick, along with the State Bar Association, the State Bar Foundation and IOLTA.

The ingredients which contribute most to the stature of the Institute are the talent, time and effort expended by the very best of New Jersey attorneys, representing every field of specialization and every type of practice. The voluntary participation of practicing lawyers and judges as lecturers, authors, and advisors is appreciated and encouraged, for without their assistance, high quality continuing legal education would not be possible.

The Institute welcomes this opportunity to serve you.

The material contained in this publication is for educational purposes only and is not intended as a substitute for the professional services an attorney would normally provide to a client, including up to the minute legal research.

FOREWORD

For more than 45 years, the New Jersey Institute for Continuing Legal Education (NJICLE) has been serving the professional development needs of the New Jersey bench and bar. Our seminars, publications, CDs, online offerings and other educational materials are specially designed to facilitate the practice of law and to enable judges and lawyers to more effectively exercise their responsibilities.

The Institute's success in developing one of the most comprehensive, least costly collections of multi-media educational resources would not be possible without the efforts of the judges, lawyers, and other professionals who voluntarily participate in our programs and publications. The Institute is grateful for the opportunity to serve as the conduit through which they share their knowledge, skills, and expertise with their fellow professionals. Thanks to them, the Institute is recognized as one of the leading organizations of its kind in North America.

New Jersey Elder & Disability Law Practice was conceived by Gary Mazart, Esq., who recognized the need for an advanced practical guidebook to help practitioners successfully navigate through the complexities of elder and disability law practice. Without his commitment to continuing legal education and, in particular, to this ever-evolving area of the law, this publication would not be possible. NJICLE is extremely grateful for his efforts and perseverance.

This book would also not be possible without a dedicated publishing staff. It is, therefore, fitting to acknowledge the efforts of Michael Weisberg, Esq., NJICLE's Director of Publications, who assured that this citator was published promptly, accurately, and efficiently. Donna Chamberlain, the Publications Administrator, and Dudley Engram, also of NJICLE's staff, assure that orders are processed quickly and courteously.

Your total satisfaction with the Institute and the education services we provide is very important to us. So that we may continue to provide the very best in educational materials, NJICLE welcomes any comments or suggestions you may have about this book.

Lawrence M. Maron, Esq.
Executive Director,
New Jersey Institute for Continuing Legal Education
