**®NEW JERSEY INSTITUTE FOR CONTINUING LEGAL
EDUCATION**

For over 50 years, the New Jersey Institute for Continuing Legal Education, a division of the NJSBA, has served the needs of the New Jersey bench and bar. From seminars and legal manuals to CLE On-Demand videos and other educational tools, our products are designed to provide the latest strategies, expert advice, and guidance to practitioners at every stage in their career.

Our success in providing the legal community with the highest quality educational products would not be possible without the countless attorneys, doctors, dignitaries, and other legal experts who volunteer their efforts to serve as lecturers and authors. NJICLE is proud to be the conduit through which they share their knowledge, skills, and expertise with their fellow professionals.

For more information about NJICLE seminars and Publications, please visit NJICLE.com.

The material contained in this publication is for educational purposes only and is not intended to serve as a substitute for the professional services an attorney would normally provide to a client, including up to the minute legal research.

Appendix B, Selected Forms

Susan M. Sharko, Esq.
Kaitlyn E. Stone, Esq.

PREFACE

This treatise is authored and reviewed by some of the most respected and experienced jurists and lawyers involved in mass tort and class action litigation in New Jersey and nationally. Each chapter in both the First Edition and this Edition has been peer-reviewed from the perspective of both the plaintiff and the defense to ensure that this publication is balanced and objective.

We are grateful to all those who have contributed to this publication. Collectively this publication represents thousands of hours of work supported by the careers of some of the very best our profession has to offer. The names of the authors are listed in the Table of Contents and their biographies appear in herein.

A project such as this would also not be possible without a dedicated publishing team. It is, therefore, fitting to acknowledge the efforts of Robert Spangler (Senior Managing Director, Marketing & Information Technology, NJSBA) and the staff at NJICLE, who together ensure that publications and orders are produced and processed quickly and courteously. We would also like to thank Donna Chamberlain for all of her hard work and patience in editing and helping to put this book together. All of these collective efforts enabled us to bring this important project to life.

Christopher M. Placitella
