THE NEW JERSEY INSTITUTE FOR CONTINUING LEGAL EDUCATION
® **Celebrating over 40 years of service to the bench and bar**

The New Jersey Institute for Continuing Legal Education was created in 1962 to help lawyers and judges increase their general professional competence, keep abreast of developments in the law, and become more proficient in selected areas of practice. Since 1962, ICLE has served the educational needs of the New Jersey bench and bar and continually strives to respond to their many and varied concerns.

NJICLE presents more than 230 seminars each year throughout the State, offers CDs of seminars, markets software programs especially designed for the practicing attorney, and publishes comprehensive practice manuals and lecture handbooks. The professional staff of attorneys and administrators, aided by a dedicated support staff, is headquartered at the New Jersey Law Center in New Brunswick, along with the State Bar Association, the State Bar Foundation and IOLTA.

The ingredients that contribute most to the stature of the Institute are the talent, time and effort expended by the very best of New Jersey attorneys, representing every field of specialization and every type of practice. The voluntary participation of practicing lawyers and judges as ICLE lecturers, authors, and advisors is appreciated and encouraged, for without their assistance, high quality continuing legal education would not be possible.

The Institute welcomes this opportunity to serve you.

The material contained in this publication is for educational purposes only and is not intended to serve as a substitute for the professional services an attorney would normally provide to a client, including up to the minute legal research.

FOREWORD

For the past 50 years, the New Jersey Institute for Continuing Legal Education (NJ ICLE) has endeavored to serve the continuing legal education needs of the New Jersey bench and bar. Our seminars, publications, CD-ROMs, and other educational materials are designed to facilitate the practice of law and to enable judges and lawyers to more effectively exercise their responsibilities.

As we are poised to enter our second half century of service, NJ ICLE has recently become a division of the NJ State Bar Association. We are excited about becoming a part of the state's leading lawyer organization and serving the CLE needs of its leadership and members.

Our success in bringing the legal community the very best in educational materials would not be possible without the judges and lawyers who volunteer their efforts to serve as lecturers and authors. NJ ICLE is the conduit through which they share their knowledge, skills, and expertise with their fellow professionals.

ISRA COMPLIANCE: BROWNFIELD REDEVELOPMENT AND THE SITE REMEDIATION REFORM ACT was developed by David Farer, Esq., who recognized the need for a practical guidebook to help practitioners successfully navigate the sometimes complex and troubled waters of ISRA. Without his commitment to continuing legal education and, in particular, to this ever-evolving area of the law, this publication would not be possible. NJ ICLE is extremely grateful for his efforts.

A publication such as this would also not be possible without a dedicated publishing staff. It is, therefore, fitting to acknowledge the efforts of Michael Weisberg, Esq., our Publications Director, Donna Chamberlain, our Publications Administrator, and Dudley Ingram, also of our staff, who together assure that orders are processed quickly and courteously.

Your satisfaction with the CLE products that we provide is very important to us. So that we may continue to serve you to the very best of our abilities, NJ ICLE always welcomes any comments or suggestions that you may have.

Joseph J. Hogle, Esq.

Director

NJ Institute for Continuing Legal Education, a division of the NJ State Bar Association
